

Team: THE MOVIE ANALYZERS  
Sprint-2

Features to Implement by Next Sprint:

- Movie Data:  
(tmdb\_5000\_movies.csv, tmdb\_5000\_credits.csv)
  - Feature 1: as a user, I want to search for a movie based on the movie title
  - Feature 2: as a user, I want to search for a movie based on a specific cast member
  - Feature 3: as a user, I want to search for a movie based on its release date
  - Feature 4: as a user, I want to search for a movie based on the genre
  - Feature 5: as a user, I want to search for a movie based on certain keywords that describe the movie
  - Feature 6: as a user, I want to search for a movie that is based on its original language

GUI Design:

#### User Test Cases:

- Feature 1 Test Cases: as a user, I want to search for a movie based on the movie title
  - As a user, I switch to a specific search by title
    - Correct Output: Site UI changes to display that specific search criteria, and will only list movies that match the title name
- Feature 2 Test Cases: as a user, I want to search for a movie based on a specific cast member
  - As a user, I switch to a specific search by cast
    - Correct Output: Site UI changes to display that specific search criteria, and will only list movies that include said actor
- Feature 3 Test Cases: as a user, I want to search for a movie based on its release date
  - As a user, I switch to a specific search by release date
    - Correct Output: Site UI changes to display that specific search criteria, and will only list movies released at the specified time
- Feature 4 Test Cases: as a user, I want to search for a movie based on the genre
  - As a user, I switch to a specific search by genre
    - Correct Output: Site UI changes to display that specific search criteria, and will only list movies that are of the specified genre
- Feature 5 Test Cases: as a user, I want to search for a movie based on certain keywords that describe the movie
  - As a user, I switch to a specific search by keyword
    - Correct Output: Site UI changes to display that specific search criteria, and will only list movies that are commonly searched for using said keywords

- Feature 6 Test Cases: as a user, I want to search for a movie that is based on its original language
  - As a user, I switch to a specific search by language
    - Correct Output: Site UI changes to display that specific search criteria, and will only list movies that were originally filmed in that language
